

CONTRACTING PTY LTD

Environmental Policy

Hall Contracting Pty Ltd recognises its duty to ensure that its civil and dredging activities are conducted in a manner that will minimise environmental impacts and prevent harm to the health of people from exposure to potential emissions or pollution arising from our operational activities. In meeting this duty we will comply with the requirements of *applicable state, territory or federal legislation in Australia*, and all other applicable statutory requirements, as well as industry standards and codes of practice, and (where contractually specified) the environmental requirements of our clients.

Environmental sustainability is a key organisational value of our business.

It is our policy to:

- Establish environmental objectives and targets to improve our environmental performance through waste reduction, reuse and recycling, as far as practicable. .
- Where practicable, purchase plant, equipment and materials that will prevent or reduce the likelihood of unauthorised emissions or pollution.
- Not cause or allow serious or material environmental harm.
- Educate and train employees to minimise environmental harm.
- Prevent unauthorised clearing of vegetation, or contravention of the conditions of an authorised clearing permit.
- Ensure that dangerous goods are correctly stored and handled on our work sites.
- Continuously review our environmental management system in order to meet or exceed best practice.

Hall Contracting Pty Ltd is committed to this Environmental Policy and shall review its content on an annual basis.
